

FOCUS on

HALE END & HIGHAMS PARK

33 Nesta Road Woodford Green IG8 9RG

Thank you for being one of the many residents who replied to our recent Focus survey and petitions.

As a result we have followed up with a number of actions.

We have written to Boris Johnson on your behalf telling him of your concerns over policing and calling for a budget and plans to keep police numbers up in our streets.

We are also pleased to tell you that our Lib Dem team of councillors in Waltham Forest have successfully committed our council to write to the Government expressing our and your opposition to the building 'free for all' that they proposed.

In order of priority residents have told us your concerns are better street cleaning, control of fly tipping, cleaning alleys. More street bins was a lower priority. You were also clear you did not want more local CPZ in our area.

Residents also raised specific concerns about the condition of pavements in certain locations, speeding traffic, drink and drug related issues, the boarding up of properties and the need to enforce existing laws.

We are taking up all these issues you have raised with the appropriate section of the council and the police and will keep in touch with you.

Again thank you for your replies

Sheila Smith- Pryor
For the Hale End & Highams Park Focus Team
